

Web & Computer Technology ?

Clear, Simple, and Effective.

For Us, IT's Child's Play.

ROCON Technology provides clear, simple, and effective IT solutions for your business. Turn the game in your favor with the support of ROCON's network of experienced professionals, and make the challenges of IT as easy as child's play.

- **Clear**

ROCON will develop a **clear** technical strategy to promote and support your business growth, whether you are a small startup or a large established corporation.

- **Simple**

Modern IT systems, even on a small scale, are complex and interconnected. ROCON can make this maze of hardware and software as **simple** as child's play, keeping you focused on what matters most - your business.

- **Effective**

ROCON combines experience with dedication and expertise to provide the most **effective** solutions. With our round-the-clock service you can rest assured that your business is supported 24 hours a day, 7 days a week.

- **Who is Rocon:**

Roberto Consales brings to ROCON's customers his expertise consisting of nearly two decades of hands-on experience in electrical engineering, software engineering, hardware design and support, biomedical technology, pharmaceuticals, publishing, finance and international trade.

ROCON's customers range from small and mid-sized businesses in the greater New York City area to large global enterprises including Italian automobile manufacturer Fiat and luxury goods company Les Copains.

Our Services in details

- **Office Technology Infrastructure**
Computer and network setup, web presence, file services, and the integration of mobile communications are the basic IT building blocks for your business.
- **Backup and Recovery**
Protect your data. Off-site data back up on a scheduled basis insures that your information is safe and secure.
- **Business Continuity Planning**
What if there is an emergency and your office is unavailable? Rocon can get you back online quickly.
- **Remote Access**
Do business where and when you want. We specialize in transcontinental solutions.
- **Microsoft Exchange**
Optimize your email and share calendars and folders. Avoid spam. Check in from anywhere.
- **VoIP**
Reduce your telephone costs and improve your flexibility with this new generation of telephone services.
- **Video and Teleconferencing**
ROCON can set up your audio/visual infrastructure to enable professional presentations and Webinars to help you look your best and save money on travel expenses.
- **Helpdesk support**
Highly-qualified and experienced ROCON computer support technicians provide agile and responsive remote and on-site support.
- **Telecommunications**
Deploy the ideal solution for high end bandwidth users where connectivity is essential for operations: from a simple T1 or DS3 dedicated line, to an "OCx" fiber optic network.
- **Unified Communications**
Unified communications is a way to streamline you communications so that everything comes into one inbox - email, voicemail, fax - there is just one place to check.
- **Data encryption**
512-bit Polymorphic Encryption gives you protection you need from identity theft, viruses, hackers and phishers, conveniently contained on a USB flash drive.
- **Data Recovery**
ROCON can help you recover your data from damaged hard drives, RAID, SAN, tapes, PCs, Macs, iPods, etc. with a fast turnaround.
